SACRAMENTO UPDATE

Budget Conference Committee

The Constitutional deadline for the Legislature to pass the FY 2008-09 State Budget was June 15, 2008, but the Budget Conference Committee did not begin its deliberations until Thursday, June 12, 2008. Similar to last year, there are no conferees from Los Angeles County. This year's Conference Committee members include:

Senate

Denise Moreno Ducheny, Chair (D - San Diego)
Robert Dutton (R - Riverside/San Bernardino)
Michael Machado (D - Linden)

Assembly

John Laird, Vice-Chair (D - Santa Cruz)
Mark Leno (D - San Francisco)
Roger Niello (R - Sacramento)

As part of his opening remarks to the Committee, Assembly Member Laird stated that this budget cannot be balanced with cuts alone, and that increasing revenue is a necessary component. Assembly Member Niello countered by saying that there are no votes in the Republican Caucus for a tax increase.

A representative from the State Treasurer's office addressed the Committee and explained that the State will likely run out of cash in August and would have to borrow an estimated \$10 billion for cash flow purposes, which would be a record amount for California. The

spokesperson also stated that an on-time budget and an overall solution to California's ongoing structural deficit are extremely important at this time as continued borrowing to be repaid out of the State General Fund would be viewed very negatively by the financial markets.

The Conference Committee met again on Friday and Saturday, but it has only considered approximately one-half of the 439-page Conference Agenda. While a variety of issues including general government, parks, transportation, health care, and Medi-Cal have been discussed; only a small number of technical, lower budget amount items have been closed. All major issues have been left open for further discussions and negotiations. The Conference Committee is scheduled to resume deliberations this week.

Pursuit of County Position on Legislation

AB 550 (Ma), as amended on May 19, 2008, would amend the Revenue and Taxation Code by deleting the requirement that county assessors conduct audits every four years of businesses who own, claim, possess or control locally assessable trade fixtures and tangible business property with a full value of at least \$400,000. The bill would also require that the largest businesses continue to be audited every four years and would reduce the number of mandatory audits.

The Los Angeles County Assessor indicates that current law allows for non-mandatory audits of businesses with personal property valued at less than \$400,000. However, these non-mandatory audits are dependent, in large part, on available resources. The audit threshold was last increased from \$300,000 to \$400,000 in 2001. Since 2001, economic growth has contributed to an increase in the number of businesses that exceed the \$400,000 threshold. This has resulted in an increased workload for most county assessors, further reducing resources available for non-mandatory audits.

Many of the mandatory audits reveal accurate reporting. A company or business with an assessment of \$400,000 or more that has reported accurately year after year must still be audited at least once every four years, despite historical evidence of accurate reporting. Conversely, county assessors may have evidence that certain businesses with personal property assessments of less than \$400,000 have underreported their personal property, but lack the resources to audit these companies.

According to the Assessor, AB 550 would address this problem by: 1) eliminating the mandatory audit threshold of \$400,000 in assets used to determine which businesses are audited; 2) require that the largest businesses continue to be audited every four years; and, 3) reduce the overall number of mandatory audits to 75 percent of the average number of audits annually performed between 2002 and 2006. Further, AB 550 would improve audit efficiency, provide for more effective allocation of resources, and provide fairness to those taxpayers reporting their assets accurately. In addition, it is anticipated that this bill will produce cost savings to the counties due to reductions in the total number of mandatory audits.

The Assessor further indicates that the proposed legislation will likely result in increased revenue to counties as county assessors will have the ability to audit companies or industries that are likely underreporting their taxable personal property. In addition, there is an increased likelihood that more accurate reporting can be expected for businesses with personal property assessments of less than \$400,000.

The Los Angeles County Assessor and this office support AB 550. Support of AB 550 is consistent with County policy to support legislation to increase the \$400,000 mandatory audit threshold for personal property assessments to an amount to be determined based on a County's net assessed value. **Therefore, our Sacramento advocates will support AB 550.** AB 550 is sponsored by the California Assessor's Association. There is no registered opposition on file. The bill is scheduled for a hearing in the Senate Revenue and Taxation Committee on June 25, 2008.

Status of County-Sponsored Legislation

County-sponsored AB 1903 (Hernandez), which would reinstate limited liability immunity for use of the County's flood control system to conserve groundwater supplies, passed the Senate Judiciary Committee on June 10, 2008 by a vote of 4 to 0, as amended, and now proceeds to the Senate Appropriations Committee. The amendments require special consideration for injured parties under the age of 16.

County-sponsored SB 1184 (Kuehl), which would require clinical laboratories to report full CD4 AIDS test results to the local health officer within seven days of the completed test, passed the Assembly Health Committee with technical amendments on June 10, 2008, by a vote of 16 to 0 and now proceeds to the Assembly Appropriations Committee.

Status of County-Advocacy Legislation

County-opposed SB 201 (Florez), which would have required the State Public Health Officer and the Department of Food and Agriculture to establish and administer a leafy green vegetable inspection program to increase food safety, including requiring additional water quality testing and maintenance of water quality records by growers, was substantively amended on June 5, 2008 and now addresses raw milk testing standards for dairy farms. **As the purpose of the bill has changed, we will remove our opposition to SB 201 and take no position on this legislation.**

County-supported SB 1236 (Padilla), as amended on April 3, 2008, which would extend the January 1, 2009 sunset date for five years for counties to levy an additional \$2 penalty assessment for pediatric trauma centers and emergency services, passed the Assembly Public Safety Committee on June 10, 2008, by a vote of 5 to 1 and now proceeds to the Assembly Appropriations Committee.

County-supported SB 1349 (Cox), as amended on April 24, 2008, which would require the State Controller's Office to reimburse county contractors or subcontractors for mental health services within 90 days after the receipt of a reimbursement claim by the California Department of Mental Health, passed the Assembly Health Committee on June 10, 2008, with technical amendments by a vote of 16 to 0 and now proceeds to the Assembly Appropriations Committee.

Legislation of County Interest

AB 2882 (Wolk), as introduced on February 22, 2008, would authorize public agencies to charge allocation-based conservation water pricing that meets the following criteria: 1) billing is based on metered water use; 2) each customer account has a "basic use allocation" that is based on the customer's needs and property characteristics; 3) a basic, volumetric charge is imposed for the basic use allocation with the potential for lower rates for "superior" water conservation; and 4) a conservation charge is imposed for increments of water use in excess of the basic use allocation, not to exceed the costs of conservation measures and overuse.

In addition, AB 2882 would: 1) allow the public entity to recover its fixed costs; 2) limit revenues derived from conservation charges to the proportional cost of service subject to the conservation charge; 3) preserve public entity authority to use other rate structures to promote conservation; and 4) define certain terms, including "conservation measure costs", "overuse costs", and "public entity", which includes cities, special districts and other political subdivisions.

The Department of Public Works (DPW) indicates that the single largest contributor to urban runoff during dry weather periods is overuse of potable water supplies by residents, tenants and property owners. Potable water overuse creates runoff from properties that wash pollutants into the receiving waters. DPW states that the cost to the County for capturing and treating these flows is projected to be tens of millions of dollars annually. DPW indicates that charging this cost to those directly causing and contributing to the problem through the overuse of potable water supplies is the most equitable means to fund the necessary control and treatment systems.

DPW indicates that meeting the expanding potable water demands of a growing population is increasingly more difficult. The cost for each incremental volumetric unit of water is increasing dramatically as ever greater effort is required to identify and develop these alternative sources. Overuse of potable water also decreases the availability of water supplies to meet other demands. DPW states that assessing the cost to develop alternative supplies of potable water to those overusing water is the most equitable means for raising the funds needed to accomplish that goal.

AB 2882 is sponsored by the Irvine Ranch Water District and the Santa Ana Watershed Project Authority, and is supported by several entities, including the California Building Industry Association, California Special District Association, Las Virgenes Municipal Water

District, and the Surfrider Foundation. It is opposed by the Desert Water Agency. AB 2882 passed the Assembly Floor on April 14, 2008 by a vote of 72 to 1 and will be heard in the Senate Natural Resources and Water Committee on June 24, 2008.

AB 2904 (Hayashi), as amended on May 6, 2008, would permit a county board of supervisors to receive and review confidential case information of any child who dies of abuse or neglect while in the protective custody of a county's child welfare or foster care agency. On May 27, 2008, your Board instructed this office to work with County Counsel to draft amendments to AB 2904 to remove the restrictions that a finding of abuse or neglect be made prior to a board of supervisors having access to case information and that a board of supervisors meet as a whole in closed session to review the case records.

Amendments were accepted by the Alameda County Counsel on behalf of the Alameda County Board of Supervisors, the sponsors of AB 2904. On June 11, 2008, AB 2904 was amended to: 1) delete the requirement that a finding of abuse or neglect must be made prior to giving a board of supervisors access to case records; 2) allow a board of supervisors or their members to review the case records of children currently in the custody of the child welfare system, who were previously in custody, or who previously came to the attention of the county child welfare system; and 3) allow a board of supervisors in a county with a foster care population of more than 10,000 to permit individual board members' offices to receive and review case information for the purpose of determining which cases shall be brought to the attention of the full board of supervisors. AB 2904 is scheduled for hearing in the Senate Judiciary Committee on June 24, 2008.
